## Chapter 1 by Captain

I love subjects in school but I hate school. The hallways are always so loud and gross, the lunch tables haven't been cleaned in like, 3 weeks. The homework is easier than writing your name. I told my mom about it and she just shrugged and walked away, it was all we could afford. I always got perfect scores and I guess that did something because one afternoon a man walked in, his name was Gordon Brown and he was head of the CIA.
